PERSONAL PROJECTS

BookHeaven

[GitHub Repository](#) | [Live Link](#)

A Django-based library management system for borrowing, reviewing, and managing books.

- Users can **create accounts, deposit money**, and borrow books, with refunds available upon book return.
- Dynamic transaction system for **deposits, withdrawals**, and **filtered transaction history** by date.
- Users receive **email notifications** for key actions: borrowing/returning books, updating information, and changing passwords.
- Users can **review books**, view borrowed books, and track borrowing history.
- Implemented book listing with **images, descriptions, quantities, reviews**, and **category-based filtering**.
- Profile management features: **update profile, change password**, and view account activities.

Technologies: Django, Python, SQLite, Tailwind, JavaScript, Bootstrap, Crispy Forms, HTML, CSS.

Amar Bank

[GitHub Repository](#) | [Live Link](#)

A Django-based Bank Management System for managing user accounts, transactions, and loans.

- Users can **create accounts, deposit/withdraw money**, and transfer funds to other accounts.
- Implemented a **loan management system**: users can request loans, repay loans, and track loan activities.
- Dynamic transaction history with **date-based filtering** for easy tracking of account activities.
- Users receive **email notifications** for major steps: account creation, fund transfers, loan actions, and profile updates.
- Profile management features: **update profile, change password**, and monitor account details.

Technologies: Django, Python, PostgreSQL, Tailwind, JavaScript, Bootstrap, Crispy Forms, HTML, CSS.

ACHIEVEMENTS

Qualified for ICPC Asia Dhaka Regional Contest-2024

[View Certificate](#)

Qualified for ICPC Asia Dhaka Regional Contest-2021

[View Certificate](#)

EDUCATION

Bachelor of Science (B.Sc) in Computer Science and Engineering from Dhaka City College (2019-present)

LANGUAGE PROFICIENCY

Bangla (Native), English (Comfortable)
